**Acrowire Increases Year-Over-Year Revenue by 41 Percent**

*Growth Is the Result of Expansion into New Markets and the Acquisition of Prominent Clients*

**Charlotte, N.C. (March 4, 2014)** – [Acrowire](#), a strategic business and legal technology consulting company, today announced a 41 percent year-over-year increase in revenue for 2013. The significant increase is one of many milestones the company attained in 2013 as it broadened its geographic reach beyond North Carolina and into the legal market.

Acrowire welcomed several new clients in 2013, including a Fortune® 200 corporation, an established department store with more than 300 locations in 16 states and several law firms. Services for these organizations included SharePoint 2013 implementation and development, custom application development, systems integration, Six Sigma consulting and virtual desktop infrastructure implementation.

The new clients and the revenue increase have positioned Acrowire for accelerated growth in 2014. Already this year, the company has joined the Entrepreneurs' Organization, signed an agreement to lease a larger office space in the prominent [Ventureprise](#) PORTAL building in Charlotte and will be included in a series of East Coast roadshow presentations on SharePoint 2013 for the [International Legal Technology Association \(ILTA\)](#).

“Our focus as a company is to prioritize our clients’ business goals and give them expert consultation and customized technology to enhance their success on all levels,” says Ted Theodoropoulos, president of Acrowire. “Since we do not offer ‘cookie cutter’ solutions, we are well positioned to understand, meet and exceed the unique needs and priorities of law firms and legal organizations.”
