Acrowire Announces National ILTA Roadshows for 2015

Educational series focused on SharePoint Online Versus On-Premise

Charlotte, N.C. (March 24, 2015) – Acrowire, a consulting firm specializing in strategic business and legal technology, has announced its upcoming roadshow schedule co-hosted with the International Legal Technology Association (ILTA). This 21-city tour will provide educational seminars to legal IT professionals about SharePoint Online Versus On-Premise.

The presentation will be given by both Acrowire founder and president, Ted Theodoropoulos, and Solutions Architect, Brian Gough. Acrowire expands its reach this year with additional cities and national coverage as a result of 2014's ILTA roadshow success that resulted in a 4.5/5.0 quality rating among 350+ attendees.

SharePoint Online versus on-premise has been a growing debate for years now. Do you invest in servers, licenses and people to stand up a fully controllable SharePoint infrastructure on-premise or is it time to move to the cloud with SharePoint Online? This presentation will address:

- The pros and cons of both moving to the cloud and staying on-premise
- Available features – including business intelligence and security – for SharePoint Online versus on-premise
- Integration with other platforms (e.g. DMS, CRM)
- How third party support differs and what challenges may arise
- The future and legal trends for SharePoint (i.e. cloud, on-premise, hybrid)

All legal IT professionals – whether they are ILTA members or not – are invited to attend. Lunch will be served at this complimentary event.

Registration for Charlotte (3/31) and Columbia (4/14) are currently open. Register and learn more, here.

About The Presenters

Ted Theodoropoulos, as the founder and President of Acrowire, combines his interest in technology with his passion to improve the business productivity of entrepreneurs and corporations. He has a background in technology going back to the early 1980s and is an expert at reducing the cost of doing business by identifying process inefficiencies and implementing the right technology solution to bridge the gap. Ted has earned Six Sigma Green and Black Belt certifications, and his Green Belt work led to a United States patent for which he was recognized with the 2007 Best of Six Sigma Award. He is a Microsoft Certified Professional and a Certified Scrum Master.

Brian Gough, a Solutions Architect at Acrowire, offers a wealth of knowledge with over 20 years of experience in the IT industry. He has been working with SharePoint since version 2003, and has set up more than 50 farms and over 200 sites in nine languages. Brian has twice been recognized by Microsoft and his peers as a SharePoint MVP for his contributions to the SharePoint community and knowledge of the product. He has taught classes in SharePoint development and given numerous speeches and presentations around the country on a variety of SharePoint topics.
