Acrowire Announces New SharePoint Topic for Remaining ILTA Roadshows
SharePoint 2016: What's New for Legal?

Charlotte, N.C. (August 25, 2015) – [Acrowire](#), a strategic business and legal technology consulting firm, has released its end of year International Legal Technology Association (ILTA) roadshow schedule that reflects a new SharePoint topic – SharePoint 2016: What's New for Legal? This shift in focus is a result of Microsoft's recent announcement of the SharePoint 2016 beta that is expected to be available in fourth quarter of this year.

In 2014, Acrowire hosted a similar ILTA roadshow series on the topic of SharePoint 2013 for legal. This successful tour and topic reached 350+ legal IT professionals and earned a 4.5/5.0 quality rating in the ILTA survey.

"Acrowire received a lot of positive feedback from our SharePoint 2013 topic last year and we plan to meet those same expectations for SharePoint 2016. The value that SharePoint 2016 can bring to legal is significant; this release was developed with cloud-inspired architecture and a heavy focus on hybrid deployments that will now allow legal to seamlessly have both without sacrifice."

The presentation will cover the following topics:

- Hybrid cloud solutions with global reach
- New cloud security controls and functionality
- Mobile experiences for end users
- SharePoint 2016 Requirements
- Available tools for a comprehensive SharePoint health check up

These educational seminars welcome all legal IT professionals. Learn more about this presentation, registration and the complete roadshow schedule, [here](#). Registration is currently open for the following cities:

22-Sep	New York City
30-Sep	Atlanta
27-Oct	Boston

About The Presenters

Ted Theodoropoulos, as the founder and President of Acrowire, combines his interest in technology with his passion to improve the business productivity of entrepreneurs and corporations. He has a background in technology going back to the early 1980s and is an expert at reducing the cost of doing business by identifying process inefficiencies and implementing the right technology solution to bridge the gap. Ted has earned Six Sigma Green and Black Belt certifications, and his Green Belt work led to a United States patent for which he was recognized with the 2007 Best of Six Sigma Award. He is a Microsoft Certified Professional and a Certified Scrum Master.

Brian Gough, a Solutions Architect at Acrowire, offers a wealth of knowledge with over 20 years of experience in the IT industry. He has been working with SharePoint since version 2003, and has set up more than 50 farms and over 200 sites in nine languages. Brian has twice been recognized by Microsoft and his peers as a SharePoint MVP for his contributions to the SharePoint community and knowledge of the product. He has taught classes in SharePoint development and given numerous speeches and presentations around the country on a variety of SharePoint topics.
