

SharePoint 2013

A bright new world of branding with Acrowire

SharePoint 2013 offers an entirely new branding experience.

We have an elite staff of SharePoint designers and developers.

We work in the cloud and on premise.

Located in the U.S.A.

Charlotte North Carolina

Expand your intranet/extranet.

SharePoint offers impressively large features as a CMS platform, collaboration tool, document manager and more.

Acrowire has the experience. Take a look at our work.

SharePoint 2013
Legal Industry

Nelson Mullins

Visual Interface Design

Project Summary

Nelson Mullins law firm required visual interface design options to enhance the SP2013 out of the box experience.

100% delivered
Acrowire successfully delivered the visual design concept package.

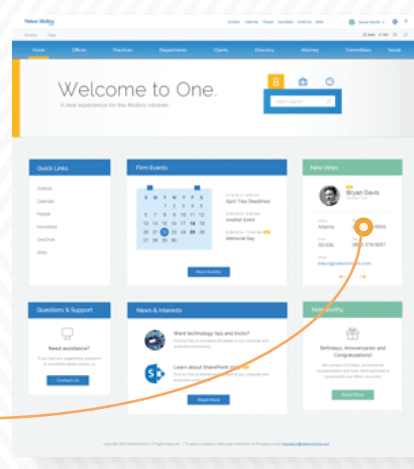

Advanced Search

SharePoint 2013 has a new performance driven approach to search. We harness this power to deliver intuitive user-driven results.

Nelson Mullins

Alternate design

The Nelson Mullins design features events, news, new employees, birthdays and more.

SharePoint 2013
Energy Enterprise

Sunoco Inc.

Design + Dev + Deploy + Support

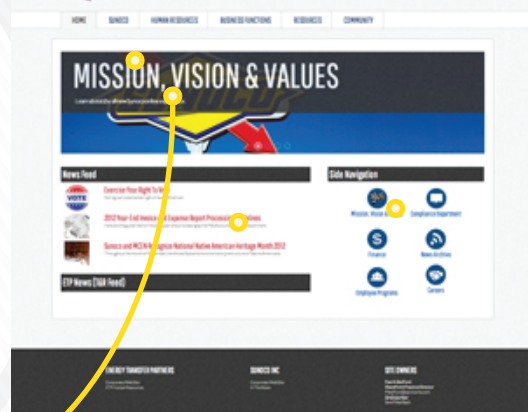

Project Summary

Sunoco INC commissioned Acrowire to design, develop, migrate and deploy SharePoint 2013 to the cloud.

We successfully migrated an existing SharePoint farm consisting of hundreds of sites and 4500+ users into a newly designed SharePoint package for Sunoco Inc and Sunoco Logistics.
